MEMORANDUM FOR THE RECORD

SUBJECT: AEDONOR/Warren Commission Documents

1. On 18 September, at Chief, SB Division, request, I reviewed two packages of Warren Commission documents which the National Archives have asked the Agency to review and make a determination as to whether or not they could be released to researchers. Art Dooley of CI Staff had already gone through the documents and marked each one in red with either a "W" (withhold) or "R" (release).

2. There were seven documents in the two packages which pertained to AEDONOR. (Numbers 16, 19, 20, 27, and 30 on List #1; and numbers 21 and 22 on List #2.) Dooley had marked all but one with a "W". I indicated in writing that the other AEDONOR document (Number 20 on List #1) should also be withheld. In addition I called Dooley on this. So far as I could see, there were no SB equities involved in the determinations made by CI Staff on the disposition of the other documents.

3. In addition, I took the opportunity to make a copy of document Number 27, List #1, for the AEDONOR files. This is a Staff memorandum which contains a very clear and interesting summary of the significance attached by the Commission to AEDONOR's information on Oswald.
